# Managing Registered Devices on FP-Guest

If you need to change or remove a device that you previously registered for wireless access
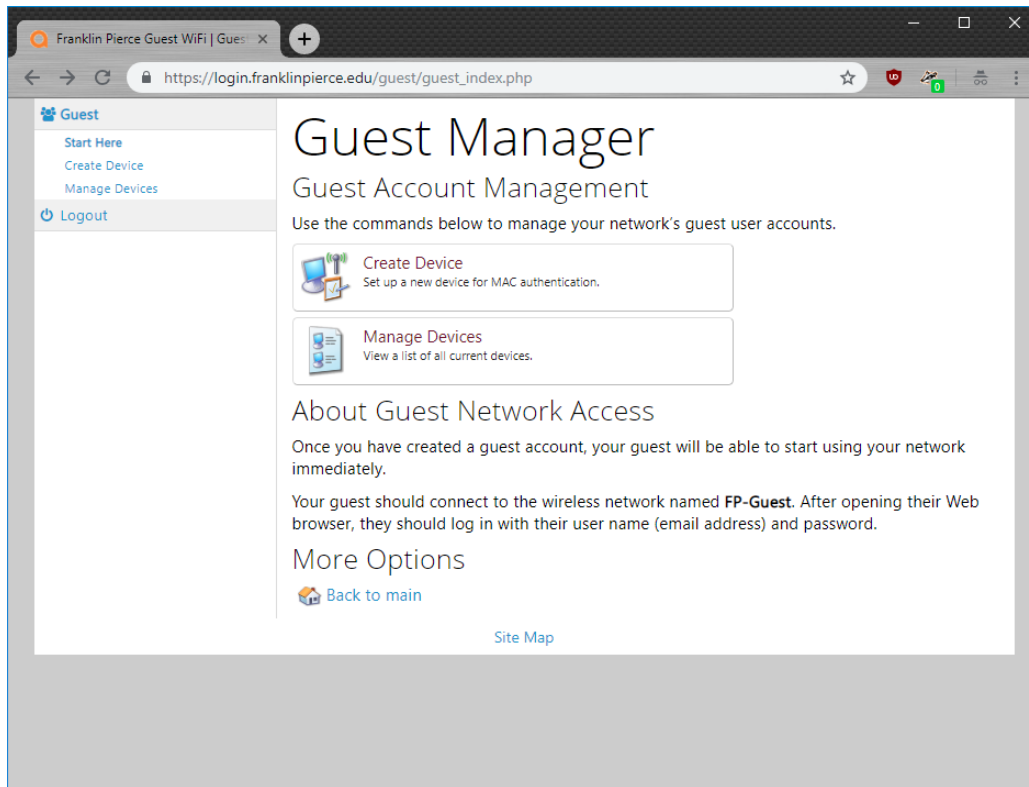

1. Using a computing device with a web browser, connect to the ClearPass portal: https://login.franklinpierce.edu and choose ClearPass Guest

2. Login with your Franklin Pierce University credentials:

3. From the Guest Manager, select the **Manage Devices** button

4. Locate the device you wish to change or remove.

5. If you wish to **Remove** the device from your account entirely, then select **Delete account** and **Make Changes** to complete.

6. If you wish to make changes to the device, select **Edit**, change the form fields as appropriate and click the **Update Device** button.

7. If your changes are complete, select **Logout** from the left side menu.
