

Using Streaming Devices

In order to enable streaming between paired devices (an iPhone and Roku for instance), you will need to enable the "AirGroup" feature for you registered devices.

1. Using a computing device with a web browser, connect to the ClearPass portal: <https://login.franklinpiercedu> and choose **ClearPass Guest**
2. Login with your Franklin Pierce University credentials, i.e. the same username and password used for Canvas and CampusWeb.
3. If you already registered the streaming device for FP-Guest, then select the **Manage Devices** button. (If you are registering a new streaming device see these instructions: [Registering Devices for FP-Guest](#))
4. Click on the device, and select Edit:

Manage Devices

Use this page to manage your devices.

MAC Address	Device Name	Created	Sharing
D8-31-34-81-DB-59	IT Roku Express	2019-02-12 13:13	Disabled

Showing 1 - 1 of 1
20 rows per page

5. Click the checkbox to **Enable AirGroup**:
Optional: If you wish to share your device with other users (i.e roommate, friends, or colleagues) you can enter their names in the Shared With: field.

Device Name:	IT Roku Express <small>Name of the device.</small>
AirGroup:	<input checked="" type="checkbox"/> Enable AirGroup <small>AirGroup uses device ownership and location information to limit the printers and Apple TVs available to network users.</small>
Shared With:	doem Mary Doe Doem16@student.fpc.edu
Device Category:	
Device Family:	Mary Doe doem@student.fpc.edu
Device Name:	
Device IP:	10.10.34.45
<input type="button" value="Update Device"/>	

6. Then click the **Update Device** button.
7. Repeat for any other devices you have registered than you need update.
8. Logout if you are finished.
